ABSTRACT

Online Examination System For British College Of Applied Studies is a dynamic website to make the manual examination processes easier.

This Online examination system is centered with processes such as Students information management, Lecturer information management, Generate exam paper, and marks calculation of the client organization. The development environment is completely dealt with various system analysis and designing tools along with some additional development kits. Such as..

- Adobe Photoshop CS for image editing purpose.
- Macromedia Flash to animate images and texts
- Macromedia Fireworks to create buttons and Pop-up menus.
- Macromedia Dreamweaver to design the web pages.

The objective behind the project has been attained with some outstanding graphical user interfaces and those interfaces have been stemmed with a database that holds different information regarding the client organization.
