ABSTRACT

Mohamed Abdul SaththarNoorulNaijiya developed a window based Examination Results Management System for ArafaMahaVidyalaya.

This study is about to develop the Examination Result Management System that can be applied in ArafaMahaVidyalaya. The main objective of developing the ERMS is to have easy and feasible search student details, results and improve the current manual system used by ArafaMahaVidyalaya.

This project therefore including the programming of main function focuses on the user interface development the implementation of .net framework 4.0 technologies.

In conclusion the project succeeded both in target of achieving objectives of founding a user friendly for users and giving an enhancement in maintainability and expandability aspect.
