Abstract

Education is an important tool which is very useful in everybody's life. School education is very essential for children in their importance of education. The Schools which determine the future of the students. In Sri Lanka, the urban schools are included under national schools and rural schools are included under the government or provincial schools. The main objective of this research is to find out the reason to the movement. This was a qualitative study. The data for this research were basically gathered by using both primary and secondary data collection techniques. Interview, focus group discussion and observation were used as primary data. School records, books, website data were used as secondary data. According to the analysis of the data, the study found that N/W/ Tulloes Tamil Maha Vidyalayam students have been moved towards urbans schools due to lack of teachers, lack of infrastructure facilities, dominance of private tutions, school locted in estate area, lack of hostel facilities and changing mentality of the students.
