2013

ABSTRACT

As IT students our main responsibility is to introduce new technologies or modify an existing System. I develop Student management System for vidyananda college , Effectiveness, and responsiveness and reduce the work load of a vidyananda College.. Systems are presentation of information which can be presented using a carefully chosen media most appropriate for your content. In order to design these pages to use special tools and techniques such as,

- Adobe Photoshop CS for image editing purpose.
- MSSQL for crating Database
- Visual studio for coding

Due to the requirement of the Vidyananda College, I am going to develop Student Management System
