Dr.Premkumar

The Ministry of Culture and Arts
8th floor, Sethsiripaya
Battaramulla.

Guidelines for Contributors

The JSR

The Journal of Social Review (JSR) is peer reviewed bi-Annual International Journal devoted to the pursuit of knowledge and continuing inquiry into the field of humanities and social sciences. It is published by the Department of Social Sciences, Faculty of Arts and Culture, South Eastern University of Sri Lanka.

Submission

Authors are requested to submit their papers electronically to socialreview2014@gmail.com. All manuscripts should be attached in a single Microsoft Word file.

Types of Articles

Two types of manuscripts may be submitted:

Regular Articles

Book Reviews

Review and Publication Process

Paper is sent to 2 reviewers for reviewing (double blind). The reviewers' recommendations determine whether a paper will be accepted / accepted subject to change / subject to resubmission with significant changes / rejected. For papers which require changes, the same reviewers will be used to ensure that the quality of the revised paper is acceptable.

File Format

Microsoft Word file format only is acceptable for the main manuscript document. All text in manuscripts should be in 12-point Times New Roman font, double-spaced, justified-alignment only. Maximum page limit is 15 pages including the references, tables, appendices.

Title page

This should contain the title (capitalize first letter of each word in the title) of the contribution and the name(s) and address(es) of the author(s). The e-mail address and telephone numbers of the author who will receive correspondence and check the proofs should be included, as well as the present address of any author if different from that where the work was carried out.

Abstract

All manuscripts must include a brief but informative Abstract intelligible without reference to the main text. It should be between 150-250 words and should describe the scope, rationale for the work and the main findings. Both common and scientific names should be included; the authorities are not given if they appear in the title. References to the literature and mathematical symbols / equations should not be included. Key words (5) should be provided below the Abstract to assist with indexing of the article. These should not duplicate key words from the title.

Introduction

This section should include sufficient background information to set the work in context. The aims of the manuscript should be clearly stated. The introduction should not contain either findings or conclusions.

Materials and Methods

This should be concise but provide sufficient detail to allow the work to be repeated by others.

Results

Results should be presented in a logical sequence in the text, tables and figures; repetitive presentation of the same data in different forms should be avoided. The results should not contain material appropriate to the Discussion.

Discussion

This should consider the results in relation to any questions or hypotheses advanced in the introduction and place the study in the context of other work. Only in exceptional cases should the Results and Discussion sections be combined.

References

For reference citations, please use APA style. Particular care should be taken to ensure that references are accurate and complete.

Copyright

Submitted manuscripts should be original work of author / authors. The manuscripts that have been published or accepted for publication elsewhere will not be considered. The Editorial Board adopts strict rules to prevent plagiarism.
